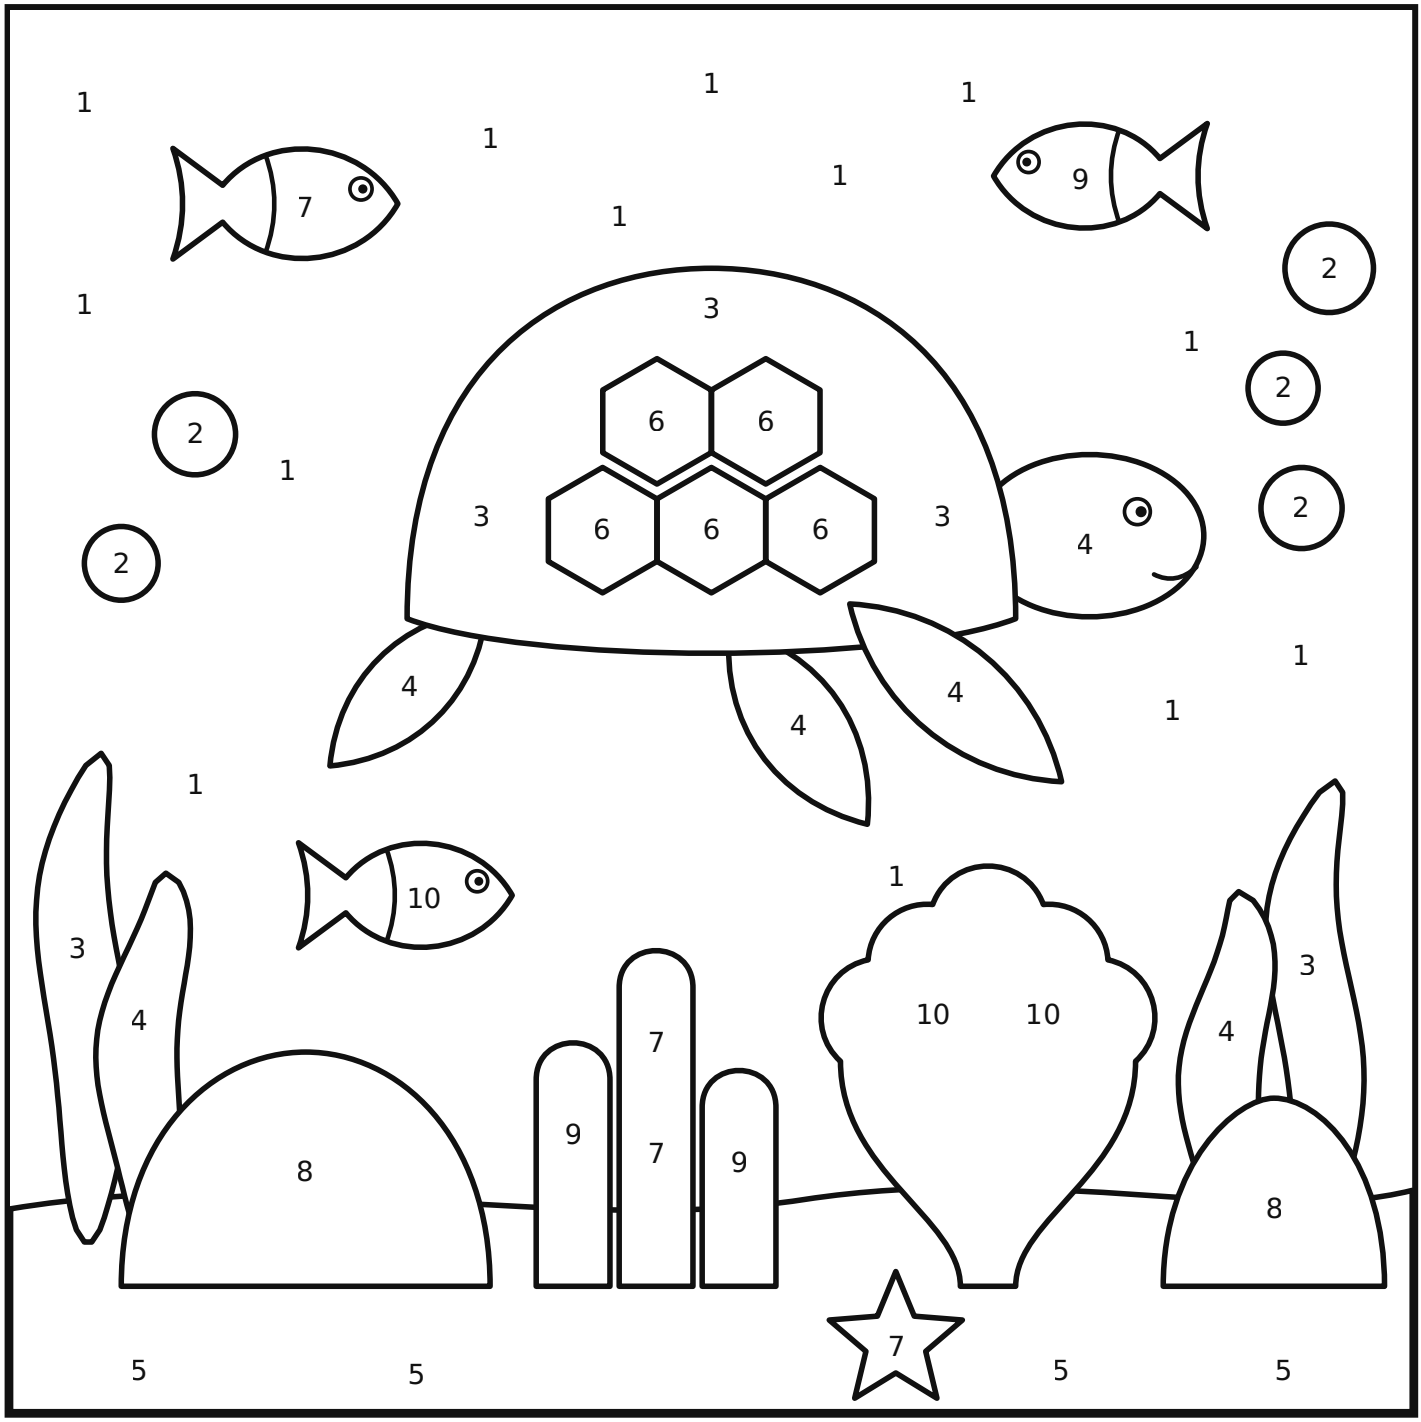
Name: _____ Date: _____

Graphing Inequalities: Color By Number



Color Code:

____ Pink $y \leq \frac{1}{2}x - 1$	____ Orange $y > \frac{1}{2}x - 1$	____ Brown $y \leq -2x - 1$	____ Tan $y > 2x - 1$	____ Green $y < -2x + 1$
____ Blue $y > 2x + 1$	____ Purple $y \geq -\frac{1}{2}x + 2$	____ Yellow $y < -\frac{1}{2}x + 2$	____ Light Blue $y \leq 2x + 1$	____ Light Green $y \geq -2x + 1$

Name: _____ Date: _____

Graphing Inequalities: Color By Number

Directions: Solve each problem and show your work in the box. Your answer should match one of the answers in the Color Code on the coloring sheet. Find the matching answer, write the problem number on its blank, then write the color on the line. Color every part of the picture with that number. Watch out: the answers look alike!

1.
A **dashed** boundary line passes through (0, 1) and (1, 3). The region **above** the line is shaded.

1. Color: _____

2.
A **solid** boundary line passes through (0, 1) and (1, 3). The region **below** the line is shaded.

2. Color: _____

3.
A **dashed** boundary line passes through (0, 1) and (1, −1). The region **below** the line is shaded.

3. Color: _____

4.
A **solid** boundary line passes through (0, 1) and (−1, 3). The region **above** the line is shaded.

4. Color: _____

5.
A **dashed** boundary line has slope 2 and y-intercept −1. The region **above** the line is shaded.

5. Color: _____

6.
A **solid** boundary line has slope −2 and y-intercept −1. The region **below** the line is shaded.

6. Color: _____

7.
A **dashed** boundary line passes through (0, −1) and (2, 0). The point (0, 0) is in the shaded region.

7. Color: _____

8.
A **solid** boundary line passes through (0, −1) and (−2, −2). The shaded region is **below** the line.

8. Color: _____

9.
A **dashed** boundary line passes through (0, 2) and (2, 1). The point (0, 0) is in the shaded region.

9. Color: _____

10.
A **solid** boundary line passes through (0, 2) and (−2, 3). The shaded region is **above** the line.

10. Color: _____
