Solving Inequalities Tarsia

Mr. K's Classroom · Hexagon of 24 triangles, 30 matches Name: _____

Directions: Solve each inequality for x. Remember to flip the sign when you multiply or divide by a negative. Cut out the 24 triangles. Match each problem to its answer so that touching edges fit, and build a **hexagon**. Glue it on a sheet of paper. Show your work for every problem on the work pages (the number before each problem tells you where).
